

# Gold

## Ivyk

There's no light in this room  
It's all right, we got you  
You shine like gold  
You walk by  
Cause a scene, all the girls  
They agree, you shine like gold  
It's good to meet you, beautiful creature  
You got my heartbeat racing like a cheetah  
Don't need no lights, so turn them off  
Give me a tylenol, because my head keeps spinning like a disco ball  
I can tell that your love is blinding  
Electric touch, I feel you inside me  
And I wanna know, yeah I just gotta know  
Can you light me up when we're alone?  
There's no light in this room  
It's all right, we got you  
You shine like gold  
You walk by  
Cause a scene, all the girls  
They agree, you shine like gold  
It's like I'm speechless  
And I can't speak cause you took the words from me  
You are my weakness  
You're sweeter than the cinnabon  
That body's all I want  
You got the whole room glowing  
Everybody knows  
I can tell that your love is blinding  
Electric touch I feel you inside me  
And I wanna know,  
Yeah I just gotta know  
Can you light me up when we're alone?  
There's no light in this room  
It's all right we got you  
You shine like gold  
You walk by  
Cause a scene, all the girls  
They agree you shine like gold

[Tyga]What you want? Diamonds and gold?  
Lifestyles of a Penthouse floor?  
Right now I'm kinda into what you like  
So tomorrow night, no regrets, let it all flow  
And if you got some bad b-tches  
I take 'em Nightly courtside, looking at a Laker  
Then later she calling me baby Like what comes after labor  
Rich-ass neighbors  
Gold in a car now we shine like sabers  
Two million ladies  
Two million light years and I still wouldn't change ya  
Waiter, waiter, can I get another shot of that Tron?  
Cause I'm on a whole 'nother level called gone  
She my queen, I'm King Hakeem  
No limelight gon' ever turn me shady I dream  
There's no light in this room  
It's all right we got you  
You shine like gold  
You walk by  
Cause a scene, all the girls  
They agree you shine like gold
