Lettin' Go

Numatik

I'm lettin' go now
Don't think, I can last
I'm lettin' go now
I've been living too fastI'm not up in the morning
And beat the clock at night
It's got so damn predictable
Feel I'm doing timeOh no, I can't stand another day
I see those gates are closing, caught in the ricochet
Oh no, my life's in miniature, I'll be here forever
How much more can a poor boy take
When all he needs is an even break?I'm lettin' go now
Work is driving me crazy
Lettin' go now
Take a lot to save meStarted when I was sixteen
It's been just like a drug
I'm working every day
You'd think, I was in loveOh no, I can't stand another day
I see the gates are closing, caught in the ricochet
Oh no, my life's in miniature, I'll be here forever
How much more can a poor boy take
When all he needs is an even break?I'm lettin' go now
Don't think I can last
I'm lettin' go now
I've been living too fast
