

# Down the Rabbit Hole (VH1 Unplugged)

## Adam Lambert

Break out all the mechanical  
Step right up to the freaky and tangible  
Hands uncuffed, take the leash on this animal  
If it's getting hyphy hit me with a night stick  
Slip right into your stripper shoes  
Roll the dice, I got snake eyes and deja vu  
Poppin' off, fire melted with bally-hoo?  
Tune in (tune in)  
Turn on (turn on)  
Drop out  
Going down the rabbit hole  
Get away from all we know  
Come on, follow  
Come on and follow me  
Going down the rabbit hole  
Even hoes and gigolos  
Come on, follow  
Come on and follow me  
Quick slow high or low  
You're never gonna know for sure  
See in stereo  
Down the rabbit hole  
Catnip and honey, teatime and all over town  
(all over town, all over town)  
Houses of candy, build 'em up and then burn them down  
(burn 'em down, just burn em down)  
It melts in your face and not in your arm?  
It starts in the bass and it ends in the crystal ball  
Going down the rabbit hole  
Get away from all we know  
Come on, follow  
Come on and follow me  
Going down the rabbit hole  
Even hoes and gigolos  
Come on, follow  
Come on and follow me  
Disco rodeo  
My kaleidoscope  
Cleopatra knows  
What's down the rabbit hole  
Going down the rabbit hole  
Get away from all we know  
Come on, follow  
Come on and follow me  
Going down the rabbit hole

Even hoes and gigolos  
Come on, follow  
Come on and follow me Quick slow high or low  
You're never gonna know for sure  
See in stereo  
Down the rabbit hole
