I'Ve Been Waiting for You

Jessica Andrews

They say Montana has a real big sky
And The Grand Canyon is deep and wide
But there's a whole lot of livin' that I wanna do
But I'd rather see the world from your point of viewI didn't go to Memphis to see 'The King'
Or ride the Mississippi down to New Orleans
I could've found someone to give my love to
But I've been waiting for youI've got a little money stashed away
Just sittin' on ready for a rainy day
Anticipating escaping with you
Doin' all the crazy things that I didn't doI didn't go to Memphis to see 'The King'
Or ride the Mississippi down to New Orleans
I could've found someone to give my love to
But I've been waiting for youOh, no I didn't wanna settle for just settlin' down
I was lookin' for the right one, baby
And that's what I've foundI didn't go to Memphis to see 'The King'
Or ride the Mississippi down to New Orleans
I could've found someone just to give my love to
But I've been waiting for you, I've been waiting for you, yeah
