

The Wagon

Dinosaur Jr.

There's a way I feel right now
Wish you'd help me, don't know how
But we're all nuts so who helps who?
Some help when no one's got a clue
And baby, why don't we? And baby, why don't we?
There's a place I'd like
to go
When you get there then I'll know
There's a place I know you've been
Here's a wagon, get on it
And baby, why don't we? And baby, why don't we?
But baby, why don't we? And baby, why don't we?
Why don't we? You won't see me, you won't see me
There you are and here I stand
Tryin' to make you feel my hand
You won't see me, you won't see me
I ring the doorbell in your mind
But it's locked from the outside
You won't see me, you won't see me
You don't live there anyway but I knock on it all day
You won't see me, you won't see me
There's a place I go but you're not there
And I'm supposed to know
How to get to where you're gonna be
But you don't even know
So I'm flakin' while you're shakin' it
With every stop you find
Without a mind, without a spine
What is it that you wanna find?
You won't see me, you won't see me
There's a place I go but you're not there
And I'm supposed to know
How to get to where you're gonna be
But you don't even know
So I'm flailin' while you're sailin' off
Without a course in mind
Without a mind, without a dock
What is it that you wanna find?
There's a place I'd like to go
When you get there then I'll know
Well, there's a place I know you've been
Here's a wagon, get on it
And baby, why don't we? And baby, why don't we?
Why don't we? You won't see me, you won't see me
There you are and here I stand
Tryin' to make you feel my hand
You won't see me, you won't see me
I ring the doorbell in your mind
But it's locked from the outside
You won't see me, you won't see me
You don't live there anyway but I knock on it all day
You won't see me, you won't see me
