

# Infernal Death

## Death

Piling the bodies  
Burn them in the night  
Skin grows black and withered  
Decayed smell will riseExistence fading  
Into ashes  
Burn those bodies  
To Infernal deathHuman coals are burning  
Repulsive yet so true  
Open graves are scattered  
When the work is throughExistence fading  
Into ashes  
Burn those bodies  
To Infernal death
