Opulence Contaminated

Dust Bolt

Drawback! havoc has won
we starve on rich tables
profiting of their ruin
opulent born, acceppting to murder,
this is our faith, our human grace order?
eternally we kill - deathless they shrill
A global act of calm,
a beauty ruled society eradicates the raw
A profit swallow, death will follow,
trash now fills your soulless hollow
in clustered stupidity we shall become
our worst enemyThe deserts of black are rising, opulence just soon will kill
Destroying the unbelievers til opulence to doom will thrillToxic! we build our own bust waste dump
and bash it to the weak but
pollution will not end til' voracious souls retreat
demand for more and greed for things we don't need
opulence devastates and builds our own decayThe deserts of black are rising, opulence just soon will kill
Destroying the unbelievers, til opulence to doom will thrill
