

# Wash Me Down

## Talk Show

Once I was a fine man  
Until I met the woman  
And then she washed me down  
And once I was a dry man  
Till they took me to a wedding  
You know they washed me down You can wash me  
You can wash me down Heaven has no windows  
'Cause heaven has no walls  
Because they wash 'em down  
The wind blows me in the corner  
And it pulls me down the hill  
You know it pulls me down down  
You know it throws me down You can wash me  
You can wash me down
