

# Joaquim

## Oscar and the Wolf

So I might...  
But would you like to take on me  
    Make an exception  
    When there's less to remain of me  
    So make an exceptionWell it's the same thing  
    I cannot consider and maybe  
I'm chasing the night so I can find rough bones and bitter diamonds  
    Let it find you  
    I wanted the right so you gave me a fever in the measure of a kind  
Rough stones and bitter diamondsShouldn't want you to need (It's you)  
    Shouldn't want you to need (It's you)  
    Shouldn't want you to need (It's you)  
    Shouldn't want you to need (It's you, it's you)  
    So I might...  
    But would you like to take on me  
    Make an exception  
    When there's less to remain of me  
    So make an exceptionYou let downWell it's the same thing  
    I cannot consider and maybe  
I'm chasing the night so I can find rough stones and bitter diamondsShouldn't want you to need (It's you)  
    Shouldn't want you to need (It's you)  
    Shouldn't want you to need (It's you)  
    Shouldn't want you to need (It's you, it's you)You let downSo I might...  
    But would you like to take on me  
    Make an exception  
    When there's less to remain of me  
    So make an exception
