

Ride On the Sun (Demo Version of "Sea Diver")

Mott the Hoople

I just done some living, still got the pain

Ain't done much giving, just my name

Ride on my son, that cold steel rail still following you Oh Lord I wanna try and lose this iron bail

Ride on the sun, ride on the sun, until you break And the city doctor's, try to see there's a future left for me

So I show them the rainbows, they're too color blind

I'm hard to find Oh Lord give me the strength so I can speak

Ride the sun, ride on the sun, until you break Oh undertaker, switch off your TV

I don't know who's dead, is it you or is it me?

For your calculations, innocent eyes, you are in doubt Oh Lord I'm trying to find out just where I am

Ride on the sun oh, ride on the sun oh, until I break
