

Sick And Tired

Black Sabbath

Got no time to be on the run
Got no holes in my shoes
You're the reason all my friends have gone
But I won't run from you So many promises and you broke 'em all
Oh, I'll forgive, but I can't forget
You know you're a fake, but I just can't take no more
'Cause I'm tired of it I'm so tired, so tired
Sick and tired of it all
I'm so tired, sick and tired
I'm so tired, sick and tired of it all, yeah You turn the truth, then you turn your back
You're a victim of yourself
The hate remains, the hurting still exists
I'm so tired of it all I'm so tired
Sick and tired, so damn tired
Sick and tired of it all, oh yeah
I'm so tired, I'm sick and tired of it all
