Saw the add in the paper, said, the hell with it all
Took a gig with the circus as the Human Cannonball
It didn't take long to learn my trade
Very first show, man, I blew the folks awayNow the job's a little risky but I'm my own boss
I gotta tell ya, Jack, it really gets me offI live in a tent with The World's Strongest Man
When I met him [Incomprehensible] broke my hand
My baby, she's a lady in the high wire act
When I'm feeling tense, she walks on my backNow the pay's okay, the benefits are great
I get to shoot the bull with the World's Smartest ApeI'm the Human Cannonball
I'm the Human Cannonball, y'allWell, I'm a hot shot, I'm a cool breeze
Underneath the big top, I'm the big cheese
I lay it on the line, let it all hang
Where I go, least I know, I'll go with a bangI reckon, I'ma living every kid's dream
It's a buzz, it's a gas, it's a real screamI'm the Human Cannonball
I'm the Human Cannonball, y'allAlright folks, just make yourself at home
Have a snow cone and enjoy the showThey put me on the cover of the USA Today
Tell the world what the Human Cannonball got to say
On the 'Carson Show', they're saying, HC
What you do you got to be right outta your treesWell, it's a little risky but I'm my own boss
I got to tell you, John, it really gets me offI'm the Human Cannonball
I'm the Human Cannonball, y'all
I'm the Human Cannonball
I'm the Human Cannonball, y'allNow blast off, I said blast off
