

'Til My Baby Comes Home

Luther Vandross

There's a whole lot of girls
Messin' around trying to get me
They do things 'cause they know
My girl is away they try to upset me They can't believe I resist how can I hold out
Where is that girl now but the truth really is
I don't worry 'cause I love my baby so And no matter where my baby is
She never leaves me without love
She gives it up till I get enough
Then I'm alright
'Til my baby comes home If she stays away for long
She calls me on a phone
I jump up when I hear her voice
Then I'm alright
'Til my baby comes home I get weak in the knees
My hands start to shakin', head gets the achin'
Is she thinkin' of me or feelin' the fire
With some other guy, yeah I can't believe I can be worried about her
I shouldn't doubt her
'Cause our thing is for real and I don't worry
'Cause I know, I know, I know No matter where my baby is
She never leaves me without love
She gives it up till I get enough
Then I'm alright
'Til my baby comes home If she stays away for long
She calls me on a phone
I jump up when I hear her voice
Then I'm alright
'Til my baby comes home Bring it on
Home to me
She makes everything alright, she's
Good to me
She's the best part of my life
Can't you tell
That I'm just like a new guy, I'm doing
Very well
'Cause I know she's coming back tonight I can't wait, can't wait, can't wait, no
I can't wait, can't wait, no Every night when I sleep
I dream of my baby she's such a lady
Then I wake up and see

That she's laying by me right there beside me I can't explain how I fell
I really love her, keep dreaming of her
'Cause our love is for real and I don't worry
'Cause I know, I know, I know And no matter where my baby is
She never leaves me without love
She gives it up till I get enough
Then I'm alright
'Til my baby comes home Now if she stays away for long
She calls me on a phone
I jump up when I hear her voice
Then I'm alright
'Til my baby comes home Alright
'Til my baby
'Til my baby
'Til my baby
'Til my baby
'Til my baby
Then I'm alright
'Til my baby comes home 'Til my ba-ba-baby
My ba-ba-baby
My ba-ba-baby comes home
Then I'm alright
'Til my baby comes home 'Til my ba-ba-baby
My ba-ba-baby
My ba-ba-baby
Then I'm alright
'Til my baby comes home 'Til my baby
'Til my baby
'Til my baby
Then I'm alright
'Til my baby comes home
'Til my baby comes home
