When I Failed

American Head Charge

Decide everything for me
Subject yourself to it
Make believe it's only your fault
Stifle my own
Ambition
It's been so long since I failed
Nothing alienates this
Anything reminds me
Relieving it only helps
Suffer to make your own gains
It's been so long since I failed
And now my senses fail me
And still my training fails me
And now everything fails me
And still everyone fails me
And still the only thing I have fails me
