

Blackheart

Motörhead

Two sides to all of us, with me you get 'em both
My good side's wonderful, though I don't like to boast
Better not cross over 'cause the other side's a beast
But don't expect the most if you can't take the least
Blackheart, what you think of me
Blackheart, you want to believe
The dark side's all you want to see
Blackheart Blackheart, what you wanna do?
Blackheart, you know it's always true
Give back what I get from you
Blackheart I know the ones I win, I know the ones I lose
I can't apologize, I know I paid my dues
I can't be sorry, if I ain't always a saint
Like to be a nice guy, but don't blame me if I ain't
Blackheart, what you think of me
Blackheart, you want to believe
The dark side's all you want to see
Blackheart Blackheart, what you wanna do?
Blackheart, you know it's always true
Give back what I get from you
Blackheart So that's the story
What you see is what you get
No doubt there's better men than me
But I ain't met one yet
No doubt the dancer calls the tune
So you can call on me
I'm all I've got
And what I am is what I'll be
Pay your money, take your choice, everybody's free
I know nobody's perfect and if they are it won't be me
I'll be the bad guy in the movie of your life
Just thank your lucky stars I didn't use a knife
Blackheart, what you think of me
Blackheart, you want to believe
The dark side is all you want to see
Blackheart
