Surfin' The Sun

Marion Raven

Longing to finally reach the shore
I know it's coming, count to four
I've never felt like this before
I let the thunder brake me
I feel the swell of this dark sea
This dark sea
The tide will take me
Will you save me
[Chorus :]Surfing the sun
All night long
Here where the day will not decay
Surfing the sun
This is the one
Take the wave and ride away
Moments like these define me
The salt of my skin reminds me
The touch of your lips
And I know that you and I will always be

Always be
The time will take me
Will you save me
[Chorus]Surfing the sun
All night long
Take these rays and hide away
Won't you meet me here
On the north side of the sky
Won't you meet me where
All our hidden hopes will lie
Won't you meet me here
And we'll climb this mountain high
Won't you meet me where
We once saw the raven fly
[Chorus 2X]
