

# Tongues (Feat. Ludacris)

R. Kelly

Call my name, here I come  
Ninety to nothing, watch me run  
You call  
I am ashamed to say  
Ugly girls know their fate  
Anybody can get laid  
You want a room with a fire escape  
I want to tell you how much I hate this  
Don't leave that stuff all over me  
It pains me  
Please, just leave it  
I should toss that vanity license plate  
Toss that make-up painted face  
Box those poems, chocolate cake  
Scratch that name on the record player  
Please, just leave me be  
Don't lay that stuff all over me  
It crawls all over, all over me  
Call my name, here I come  
Your last ditch lay, will I never learn?  
Caramel turn on a dusty apology  
It crawls all over me  
You turn all over  
It pains me  
Please, just leave it
