Fall Back

Hotel Coffee

Maybe I've just got it in for myself,
And I know it's negative for my health.
Want me too wait around and fake a smile,
While your having the time of your life, I'll...
Take this broken heart and go get it fixed.
Watching you suffocate and not give a shit.
Take this old love and I'll break it in half,
Because it's gone now and I'm not your fall back

CHORUS:
I cant fight, anymore.
Secrets out now I think your the, worst in me that could have been my everything.
Now that loves dead and gone. Gotta move on I outta say, I'm filled with rage as loves turning into hate.
(For you)

And you left me with this stupid death wish.
Never thought that things would topple like this.
Take a xanax just to calm the fuck down.
Get out of my life don't come back around

CHORUS:
I cant fight, anymore.
Secrets out now I think your the, worst in me that could have been my everything.
Now that loves dead and gone. Gotta move on I outta say, I'm filled with rage as loves turning into hate.

BRIDGE:
Your memory, it still haunts me, glad that it's finally through.

Turning over jaded and sober,oh it's all cause of you.

Replacing me, so easily, aren't you so full of shit

And when you cry, alone I'll smile, because this is it.

CHORUS:
I cant fight, anymore.
Secrets out now I think your the , worst in me that could have been my everything.

Now that loves dead and gone. Gotta move on I outta say ,I'm filled with rage as loves turning into hate.
