

Make My Day (Parov Stelar Mix)

Waldeck

You know how to turn me on,
Oh you got it going on,
Baby you can make my day. Come on, get down with me,
We can dance the night away,
Baby, you can make my day. Nothing's going to stop us now,
We can get down anyhow,
Come on, baby make my day. Come on, come on put the radio on,
Turn it up; the neighbour's gone,
You can make my day. You know how to turn me on, oh you got it going on
Baby you can make my day. Come on, come on, put the radio on,
Turn it up; the neighbour's gone,
You can make my day.
Come on, come on put the radio on,
Turn it up; the neighbour's gone,
You can make my day!
