Fight Me

Xandria

I cannot turn away
From this obscurity
A nameless force
Is stealing my faceCome and try to fight me
You will never break meI know it's the final breath I'm taking
If I let you win
So I cannot be the one forgiving
Or I'm giving inNow I can see you
You were just hiding
You won't betray me
'Cause now I know your nameCome and try to fight me
You will never break meI know it's the final breath I'm taking
If I let you win
So I cannot be the one forgiving
Or I'm giving inCome and try to fight me, baby
You will never break me, no
[Incomprehensible]Come and try to fight me, baby
You will never break me, no
[Incomprehensible]I know it's the final breath I'm taking
If I let you win
So I cannot be the one forgiving
Or I'm giving inI know it's the final breath I'm taking
If I let you win
So I cannot be the one forgiving
Or I'm giving inCome and try to
Come and try to fight me
