

# Fight Me

## Xandria

I cannot turn away  
From this obscurity  
A nameless force  
Is stealing my face Come and try to fight me  
You will never break me I know it's the final breath I'm taking  
If I let you win  
So I cannot be the one forgiving  
Or I'm giving in Now I can see you  
You were just hiding  
You won't betray me  
'Cause now I know your name Come and try to fight me  
You will never break me I know it's the final breath I'm taking  
If I let you win  
So I cannot be the one forgiving  
Or I'm giving in Come and try to fight me, baby  
You will never break me, no  
[Incomprehensible] Come and try to fight me, baby  
You will never break me, no  
[Incomprehensible] I know it's the final breath I'm taking  
If I let you win  
So I cannot be the one forgiving  
Or I'm giving in I know it's the final breath I'm taking  
If I let you win  
So I cannot be the one forgiving  
Or I'm giving in Come and try to  
Come and try to fight me
