Looking Like Love

Phil Stacey

Started off easy
Downtown, the lights comin' on
The sun goin' down, you were leanin' back on me
Just messin' around, puttin' your hair up in a ponytail
Boat on a river floatin' by, that's when you looked at me
With somethin' else on your mind
I took a chance and kissed you right on your smile
Felt somethin' I ain't never felt
But we knew
Somethin' just got set in motion
How could've we have known
We were standin' on the edge of forever
We didn't know where this was goin'
But we were together and that was enough
And when the sun came up
Yeah, it was looking like love, yeah
No time to wonder
What lied past the curve of the earth
Our place on that grass, it fell out of nowhere
It happened so fast, we were just holdin' on
So free
Runnin' on young and innocent
How could've we have known
We were standin' on the edge of forever
We didn't know where this was goin'
But we were together and that was enough
And when the sun came up
Yeah, it was looking like love
Baby, here we are
Lookin' back on where we started
How could've we have known
We were standin' on the edge of forever
We didn't know where this was goin'
But we were together and that was enough
And when the sun came up
Yeah, it was looking like love, like love
It was looking like love, yeah baby
Yeah, yeah
