

Finger On the Trigger

K'SANDRA

You put your finger on the trigger
You got the finger on the pulse
You put your finger on the trigger
You got your finger on the pulse

Lately
They hang on every word you say (you say)
Watchin'™
Watchin'™ every move you make (you make)

When I look into your world
See it all turn into gold
Headline
Now this is your time and place

You've got your finger on the trigger
Everything you do is just right oh oh oh
You put your finger on the trigger
Everything is coming to life oh oh oh
It's alright
And you're looking good
So right
Got the Midas touch
You put your finger on the trigger
And then you set the world alight Whoah oh oh oh

News flash
Climbing to the top of the scene
So fast
Number one in every feed

Anything is possible
When your cup is running full
Stage fright
A-list and celebrity

You've got your finger on the trigger
Everything you do is just right oh oh oh
You put your finger on the trigger
Everything is coming to life oh oh oh

It's alright
And you're looking good
So right
Got the Midas touch
You put your finger on the trigger
And then you set the world alight

You put your finger on the trigger
You've got the finger on the pulse
You put your finger on the trigger
You've got your finger on the pulse

You put your finger on the trigger
You got the finger on the pulse

Now this is your time and place

You've got your finger on the trigger
Everything you do is just right
You put your finger on the trigger
Everything is coming to life

You've got your finger on the trigger
Everything you do is just right
You put your finger on the trigger
Everything is coming to life

It's alright
And you're looking good
So right
Got the Midas touch
You put your finger on the trigger
And then you set the world alight
You put your finger on the trigger
And then you set the world alight
Whoah oh oh oh

Outro

You put your finger on the trigger
You got the finger on the pulse
You put your finger on the trigger
You got your finger on the pulse
On the pulse
