Once a Day

Charlie Louvin

Once a day every day all day long
When I found somebody new I thought I never would
Forget you for I thought then I never could
But time has taken all the pains away until now I'm down to hurtin' once a day
Once a day all day long and once a night from dusk till dawn
The only time I wish you weren't gone is once a day every day all day long
[steel]
I'm so glad that I'm not like a boy I knew one time
He lost the girl he loved then slowly lost his mind
He sat around and cried his life away well lucky me I'm down to crying once a day
Once a day all day long...
Once a day every day all day long
