Everything went black

Nine

When these wounds were the only thing for me to
Keep
Everything went black
This river of blood is seeping from my open sores
Everything went black
Nothing to bring me the light
Why?
Everything went blackGive me a razor
I`ll give you the truth
Nothing could bury the lies
And I
I will show the way downHow many are these temporary breath before
Everything turns black?
Nothing to bring me the light
Why?
Everything turns blackGive me a razor...Turning the lifesupport system off
If it means taking you down with meDeath is glorious
