

# That Way

Shakira

I've got my baggage  
And you've got yours  
I know we've been damaged  
Been through it all And you know that feeling  
You get just before a  
Beautiful disaster  
Right on the top  
Looking down from the terrifying  
Rolling roller coaster Oh, baby, can you hear the sound?  
My broken heart's beating faster now  
In your arms  
But I know that I'm safe here in your arms Lay down  
Lay down your head on my shoulder  
Hey now  
Let's just depart from the notion  
That I love you too much  
And I'm here to stay  
I'm not giving up  
I'm not running away  
So we're going to leave it that way  
That way This is much bigger than you and I  
To live without love would be suicide  
I'll sing you a song, close your pretty eyes  
I like to hear you breathing  
It's like the soundtrack of my life  
The only memory I'm keeping Oh, baby, can you hear the sound?  
Your broken heart is beating faster now  
In my arms  
I promise that you're safe here in my arms Lay down  
Lay down your head on my shoulder  
Hey now  
Let's just depart from the notion  
That I love you too much  
And I'm here to stay  
I'm not giving up  
I'm not running away  
So we're going to leave it that way  
We're going to leave it that way

That way
