

Long Way

Sammy Adams

We can go the long way, oh
Find our way home
We can go along,
We can go along
Till we find our way back We can go the long way, oh
Find our way back home
Even if it's so cold
Find our way back
We can go the long way, oh
Find our way home
We can go along,
We can go along
Till we find our way back
We can go the long way, oh
Find our way home
We can go along,
We can go along Till we find our way back I know you're lonely every time I leave
Isn't a broken heart if it doesn't bleed
We're still by the journey was
Live now in the reason time
Cold nights, yeah we've had a few
Never get another if it wasn't for you
Rather have my blood turned blue
My whole crew, too
Swear I saw you
I, I should've seen your betrayal comin'
All the less in the questions to the trails runnin'
Might come back just to find you
Hope running out second time, too
Oh, oh I'ma keep fighting, keep pushing
You gonna keep hiding
I'ma keep looking Oh, I'ma keep looking
Till we find our way back home We can go the long way, oh
Find our way home
We can go along,
We can go along
Till we find our way back
We can go the long way, oh Find our way back home
Even if it's so cold, oh oh Find our way back

We can go the long way, oh
Find our way home We can go along,
We can go along
Till we find our way back I saw the tide and the rest of us
Tell me how the weather is
I'm being a liar if I said I was
To forget about all the things that we did
I'm trying annoy you with the things you like
But haven't got it by since
I'd right be by myself rather than go through hell
I know you, too
Oh, I'd be letting my anger get the best of me No one in the end to be the death of me
Pushing but forget???
Know for a while you were gasoline It messes me what you read about?
Right back, I'm not the crazy one that's getting out
Zero fucks given About the best soul
This time I feel, no??? Too much to over bearing
Do you care much about what you've been inherit?
When it all falls turning so right
How'd you be around for the whole night? We can go the long way, oh
Find our way home
We can go along,
We can go along
Till we find our way back
We can go the long way, oh
Find our way back home
Even if it's so cold, oh oh
Find our way back
We can go the long way, oh
Find our way home
We can go along,
We can go along
Till we find our way back
We can go the long way, oh
Find our way home
We can go along,
We can go along
Till we find our way back.
