

# Today

## Embrace

Today I lock my fears away  
Turn the key and throw it away  
And leave the badness behind  
And start again Today I get to make it new  
Today I'm free, free to choose No more worries I can't face  
I know there's nothing stacked so high  
I can't see the light from behind  
And clear the way Today I get to make it new  
Today I'm free, free to choose  
Today I get to start anew  
Today I'm free, today we're through
