Deep In My Pocket

Raining Jane

I carry you deep in my pocket
I'm only as big as the truth
That I can stand behind
But if I never even offer it up
How can I even ever draw the line?
I carry you deep in my pocket
I think the asnwers will come when I'm ready
Ready to move
Either that or I'll have to
Jump right for the urgent truth
I'm ready to move on
I think that I have had my fill
But until then I guess that I know
I know the drill
I carry you deep in my pocket
Ready to pull out anytime and be shocked at
Choices I've made between you and my life
When it's just me you know I pay the price
Et j'ai bien cherche
Entre ciel et soleil
C'etait toi que je trouvais
Meanwhile you're asking
For everything that I could be
But I don't want to sell myself short
For some sort of brief velocity
I carry you deep in my pocket
I carry you
I carry you
