Life's Sweet Drug

Slash's Snakepit

Hey, what you doin' out there
Did you tumble down and burn out in the fire
You ain't going nowhere
Stay with me now, let's get higher and higherI, dead broke and blue take a look
No I ain't no rose
We, just you and me
Got a little tied up and now I'm indisposedKeep it going, once it's started
Share a ride with everybodyLife
Such a sweet, sweet drug
Complete my world
Come and make me numbHe had a seven year itch
Losin' and scratchin' himself
She was a complicated bitch
Fuck with your mind
Put your balls on a shelfKeep it going, once it's started
Share a ride with everybodyLife
Such a sweet, sweet drug
Complete my world
Come and make me numbNow at this moment
I can feel the ecstasy
Live the life you're given
Leave the bag with me, pleaseLife
Such a sweet, sweet drug
Complete my world
Come and make me numb
