He Is There

Marky Silvers

There are times in life
When it don't feel right.
Everything out of line
Just suit up and fight.
You wanna tough
Feeling not good enough
But, we are, in his eye
If you're going through a raging storm
Feeling like you can't get back up, back up,
Still get back up, back up
When everything is crashing down,
And all you see are these clouds dark clouds
All around
Just take a breath of fresh air
Lift your head up feel his presence
Know he is there
Know he is there
He knows everything you're going through
This is why he came for you
I know, I know, I know,
He is mine

When your day gets thoug
And you're feeling rough
You feel alone just stand tall stand strong
Do you see the light
Right in front of your eyes
It's the evidence that he was there
If you're going through a raging storm
Feeling like you can't get back up, back up,
Still get back up, back up
When everything is crashing down,
And all you see are these clouds dark clouds
All around
Just take a breath of fresh air
Lift your head up feel his presence
Know he is there
Know he is there
He knows everything you're going through

This is why he came for you
I know, I know, I know,
He is mine
God knows you when he's come for you
To love you and to hold you
He knows who we are
God knows you when he's come for you
To love you and to hold you
He knows who we are
