

Standstill

Bonsai Nation

When I'm feeling down
I burn the feeling and it turns around
I just can't get it right
So why should I, why should I have to fight?
I want you to find a way
To seize the day without me now

Because I'm at a standstill
All I see is a red light
Give me more than a gesture
Let me know
Oh I'm at a standstill
All I see is a red light
Give me more than to fester in my head
Whoa no, I need you here with me...

Feet back on the ground
Bad vibrations, so I burn 'em down
Corny as it sounds,
But your direction is going out of bounds
I want you to find a way
To seize the day without me now

Because I'm at a standstill
All I see is a stop sign
Give me more than a gesture
Let me know
Oh I'm at a standstill
All I see is a stop sign
Give me more than to fester in my head
Whoa no, I need you here with me, yeah...
