

# Before the Sun Goes Down (Sing-A-Long)

PureNRG

Careless words cut so deep  
My heart breaks in two  
I just want to run away but,  
I know what I must do I can't let the hurt have control  
Got to find my strength in my soul Chorus:

Before the Sun goes down  
Before the world spins around  
Before a new day starts  
I must forgive  
There's a grace that I've been shown  
I know that I have to pass it on  
Got to make it right  
Right now before the sun goes down When it get's hard on my own  
So I start to pray

Give me strength and courage Lord  
Help me to be brave I wanna love just like you  
I know there's no better time to make a move Before the sun goes down  
Before the world spins around  
Before a new day starts  
I must forgive  
There's a grace that I've been shown  
I know I've got to pass it on  
Got to make it right

Right now before the sun goes down I've got to forgive before the sun goes down Before the sun goes down  
Before the world spins around  
Before a new day starts  
I must forgive  
There's a grace that I've been shown  
I know I've got to pass it on  
Got to make it right  
Right now before the sun goes down Before the sun goes down  
Before the world spins around

Before a new day starts  
I must forgive  
There's a grace that I've been shown  
I know I've got to pass it on  
Got to make it right  
Right now before the sun goes down
