

Join Our Club

Saint Etienne

[Incomprehensible]

The chicken soup mix of 'Join our club'Join our club!Don't you worry 'bout a thing

Teen spirit is the '90s scene

I know you want to hold my hand

I know you're going to love my band, yeahJoin our club!

(Do you believe in magic?)

Join our club!

(Do you believe in magic?)You should call us up tonight

Our time, everything's alright

There's gonna be a storm quite soon

Get ready 'cause we're coming through, yeahJoin our club!

(Do you believe in magic?)

Join our club!

(Do you believe in magic?)Do you believe in magic?

Do you believe in magic?Slip on your pink fur coat, bring your rude pictures

Put on your teenage head, this is a love thing

We all want to kiss the sky

Join our club, we're going to tryJoin our club!

(Do you believe in magic?)

Join our club!

(Do you believe in magic?)Join our club!

(Do you believe in magic?)

Join our club!

(Do you believe in magic?)Do you believe in magic?

Do you believe in magic?

Do you believe in magic?
