Shadows

Dev

Everywhere I look
Everywhere I look I see shadows
Haunting over me
And I wonder when they'll let me be

Lost in my mind late at night
And you're who I see in my dreams
Deepest eyes tucked aside
A pain that doesn't sting
I know I've ran and I know I hide
I know I've changed, I know I lied
I knew I should but I couldn't see
Bridges burnin' in back of me
Ooh, help me out, holy ghost
I have lost the only thing I know
And all, all I have left are shadows

Everywhere I look
Everywhere I look I see shadows
Haunting over me
And I wonder when they'll let me be

I wonder as the morning news
I wonder when tomorrow's done
The words you never got to hear
They were just right there on the tip of my tongue

Sometimes I scare myself
By my own lies that I once bought
They cannot be resold
Sometimes I feel the hurt
If I was gold I'd turn to sand
And in the end it could not hold
I know I've ran and I know I hide
I know I've changed, I know I lied
I knew I should but I couldn't see
Bridges burnin' in back of me
Ooh, help me out, holy ghost
I have lost my way from your road

And all, all I have left are shadows

Everywhere I look
Everywhere I look I see shadows
Haunting over me
And I wonder when they'll let me be

Ooh, help me out, holy ghost
I have lost the only thing I know
And all, all I have left are shadows
