Bon Iver

don't you cherish me to sleep never keep your eyelids clipped hold me for the pops and clicks I was only for the father's cribhair, old, long along your neck onto your shoulder blades always keep that message taped cross your breasts you won't erase I was only for your very spacehip, under nothing propped up by your other one, face 'way from the sun just have to keep a dialogue teach our bodies: haunt the cause I was only trying to spell a lossjoy, it's all founded pincher with the skin inside you pinned me with your black sphere eyes you know that all the rope's untied I was only for to die besideso its storming on the lake little waves our bodies breakthere's a fire going out, but there's really nothing to the southswollen orange and light let through your one piece swimmer stuck to yousold, I'm Ever open ears and open eyes wake up to your starboard bride who goes in and then stays inside oh the demons come, they can subside
