

# Monday Morning

## Adam Holmes & The Embers

Well my heart starts beating baby so damn quick  
like a fever in my body and it makes me sick  
you know i love you, we can be so good  
laying on a monday morning i'll be feeling just the way i shouldI am still aware that you need your space  
when you do tell me darling i dont mind to wait  
you know i love you this is something true  
laying on a monday morning ill be feeling just the way i dowell your longing to be lonesome but you need to be  
near  
dont you worry bout tomorrow youve got nothing to fear  
you know i love you we can be so good  
layin on a monday morning ill be feeling just the way i should  
all the long and lazy days and the cigarettes  
i can see it your eyes from the day we met  
that i would love you despite your solitude  
laying on a monday moring ill be feeling just the way i should  
Well my heart starts beating baby so damn quick  
like a fever in my body and it makes me sick  
you know i love you, we can be so good  
laying on a monday morning i'll be feeling just the way i should  
all the long and lazy days and the cigarettes  
i can see it your eyes from the day we met  
that i would love you despite your solitude  
laying on a monday moring ill be feeling just the way i shouldWild woman and wine, youll be on my mind  
till the rivers run dry  
till the day i die
