Time

The Deadlights

Take away all that you're betrayed
Feel my pain and know that you're to blame
And I will not regret through all these years you've taken
What was pure and left stained And I will not look back upon
And I will not look back upon the part of me that lives
Where all that we once were has decayed and it brings me down
So I want out I've got to try to leave the past behind
But I've got no time
Now we sit and watch the bridges burn
We live in shame but still we never learn
Your memory lies frozen in my mind
But thats just fine
And if I try to turn back time
The past comes back and slaps me in the face
I can't erase all of my mistakes
And it brings me down so I want out
I've got to try to leave the past behind
But I've got no time
Can't erase
Can't erase
Can't erase
Can't erase
Mother fucker Time!
Give it back
Give it back
