

# Are We Having Fun Yet

Wade Hayes

I walked out tonight on the woman I love  
We had us a fight and I said I've had enough  
I slammed the door and headed for a place I used to go  
For a taste of freedom with some friends I used to know  
They had that jukebox rocking, the music turned up loud  
And I thought I'd fit right back in with my old party crowd  
But now I can't remember what I came here to find  
'Cause I've been here all night just one question on my mind  
Are we having fun yet? Right now it's hard to tell  
My head don't feel that good and this heartache hurts like hell  
I think I might have made a big mistake if this is good as good times get  
I'm down to my last dime, it's closing time, are we having fun yet?  
I'll bet she's watching TV now, in my favorite chair  
While I ride this barstool wishing I was there  
And in my wildest dreams this ain't how it's supposed to be  
Sitting here and missing her and asking my old friends  
Are we having fun yet? Right now it's hard to tell  
My head don't feel that good and this heartache hurts like hell  
I think I might have made a big mistake if this is good as good times get  
I'm down to my last dime, it's closing time, are we having fun yet?  
Are we having fun yet? Right now it's hard to tell  
My head don't feel that good and this heartache hurts like hell  
I think I might have made a big mistake if this is good as good times get  
I'm down to my last dime, it's closing time, are we having fun yet?
