Prime Movers (Club Version)

Covenant

Their iron fists are beating
picking up the steam
hammers in the mineshaft
pictures how it seemsNumbers in the working
burning down the house
clockworks in the right mind
whispering of FaustPrime movers
here and now forever
we are the prime movers
eternal for a moment
we are the prime movers
prime movers
godlike all together
prime we are prime
we are the prime movers
move and we moveProdigies are screaming
going down the road
grails of their bright right
legion we are code
