

# Stronger

Kiesza

Feels like there's nothing left  
I'm on my own  
And the road ahead, I must walk alone  
They're all leaving me  
Don't be leaving me No, they can't take away my mind  
Where I go, they will never find I feel stronger, bigger  
I feel taller, so much higher  
Feel enlightened  
Can't be frightened anymore  
I can run now so much faster  
And if he won't be my master  
And to conquer the demons  
I won't have to wait much longer  
I am stronger Through the darkest place  
The faintest light  
Oh, it gave me hope to face my fight  
Pain delivered me  
I don't need that sympathy No, they can't take away my pride  
Where I go, they will never find I feel stronger, bigger  
I feel taller, so much higher  
Feel enlightened  
Can't be frightened anymore  
I can run now so much faster  
And if he won't be my master  
And to conquer the demons  
I won't have to wait much longer  
I am stronger You'll see in time I will survive  
Too soon to run, too late to hide  
It's my destiny  
Every pace, every stride I feel stronger (tell me no tonight)  
I feel stronger (tell me no tonight)  
I feel stronger (I'm gonna show you why)  
I feel stronger (tell me no tonight)  
I feel stronger (tell me no tonight)  
I feel stronger (I'm gonna show you why)  
I can run now so much faster  
And if he won't be my master  
And to conquer the demons  
I won't have to wait much longer

I am stronger  
I am stronger I've got to be stronger  
I need to be stronger  
I've got to feel stronger  
I've got to be stronger  
I've got to be stronger  
I need to be stronger  
I've got to feel stronger  
I need to be stronger
