

Bad Love Is Good Enough

[Beth Hart](#)

Your love is like a cigarette
burning on my breath tonight
Your love leaves no promises
for the emptiness inside And I know that I should leave
But I know I'm gonna stay
No good man I've ever known
has made me hurt this way And everybody wants somebody
Somebody good to love
I just want anybody
Bad love is good enough
Bad love is good enough
Your love's got no sympathy
When you talk to me that way
Your love is like a heart attack
Like a slap across the face And I know that I should leave
But I know I'm gonna stay
No good man I've ever known
has made me love this way And everybody wants somebody
Somebody good to love
I just want anybody
Bad love is good enough
Bad love is good enough I wish I could hate you
Baby, I wish I could
I wish I could
Everybody wants somebody
Somebody good to love
I just want anybody
Bad love is good enough Everybody wants somebody
Somebody good to love
I just want anybody
Bad love is good,
Bad love is good
Bad love is good enough
