One or the Other

Plankeye

I watched you through star struck eyes
As you fell down
The words you spoke
I'd like to think you were sincereNow I've found my way back stage
I've filled my mouth with what's to taste
And what I'm saying man is
Yeah I see, I understandAnd I can't blame you
I know you had to
It was one or the other
It was you or your brotherAnd should he change your mind
Bring you around
Clear the smoke
I really hope to see you thereWe'll reminisce when we're upstairs
When it comes around who really cares?
And what I'm saying man is
Yeah I see, I understandAnd I can't blame you
I know you had to
It was one or the other
It was you or your brotherAnd I can't blame you
I know you had to
It was one or the other
It was you or your brother
