

We Are Ignited

NateWantsToBattle

You found a way out of this place
It's a permanent escape
Just take a chance and save it for a rainy day
And all the while you had your say
Didn't know how to convey
You think you're lost, no turning back, you've gone astray
Don't look before you take a fall
Who knows when you could lose it all
The medications, new sensations have left you out in the cold
You pray and hope for better days
You're just a kid who lost his own way
Forget the enemies you've made
You're not a shadow you won't fade
You found an open door inside
But the journey isn't right
The room's too small to spread his wings out and take flight
You've got to stand and defend
You'll push but you can never bend
And left all logic, don't need luck to see the end
Don't look before you take a fall
Who knows when you could lose it all
The medications, new sensations have left you out in the cold
You pray and hope for better days
You're just a kid who lost his own way
Forget the enemies you've made
You're not a shadow you won't fade
Write it out in the right time
You've gotta get in your own mind
Pick it up and live it up
You gotta shot so don't be a fool
I see you're doubting, but you're out, don't give it up
Now you know I'm talking to you
Ignite the spark, illuminate the dark and light your way
And carry on
Don't look before you take a fall
Who knows when you could lose it all
The medications, new sensations have left you out in the cold
You pray and hope for better days
You're just a kid who lost his own way
Forget the enemies you've made
You're not a shadow you won't fade
