Fuel

Hayestack

I'm so exhausted baby I need a shot
Can't make it through the day
The work was too much
I need a break from all the things
that I hate
Come on over now before it's too late
Fuel for my fire
To feed my desire
Fuel for my engine to run
Fuel for my body
And no one will stop me
Can't wait for you won't you come
I need fuel
Fuel for my engine of love
I need fuel
Fuel for my body to start
I need fuel
Fuel for my body
I need fuel
I need you

I like exceptional inflammable stuff
I get it all but it still ain't enough
Born to gain and born to hold my head up
I need it leaded so I won't have to stop
Fuel for my fire
To feed my desire
Fuel for my engine to run
Fuel for my body
And no one will stop me
Can't wait for you won't you come
I need fuel
Fuel for my engine of love
I need fuel
Fuel for my body to start
I need fuel
Fuel for my engine of love
I need fuel
Fuel for my body to start

I need fuel, fuel, fuel ...to get off
