

Come On Home

Boz Scaggs

You've been gone so long
No matter who's right, no matter who's wrong
Come on home, come on home
'Cause that's where you belong, girl Every morning I save my grace
Hoping that we'll both get back into the rains
Come on home, come on home
'Cause that's where you belong, girl I know the bright lights, they all glitter like gold
But girl, we ain't getting no younger an' this is getting old
Come on home, come on home
'Cause that's where you belong, girl I know we both, we both broke along
Let's get together, girl an' call it a draw
Come on home, come on home
'Cause that's where you belong, girl Come on home, come on home
'Cause that's where you belong, girl
