Sweet Darlin [Live]

Heart

Sweet darlin'
You saved me
I'm hummin'
From the lovin'
You gave me
You went so far
Where my feelings are
Breathing heaven fire
Sweet darlin'

I know you
You stopped running
You knew I had something
To show you
The fever tamed
Like an angel came
Made music of my name
Sweet darlin'

Early that morning we knew I had to fly
Engines were screaming and still I was asking myself why
High on the wind I was feeling my sweet darlin' cry
My heart was breaking
I closed my eyes
Darlin'
Can you hear me
We can't be wrong
The night's song
Pulls you near me
Time just falls
Distance small
I feel you all
Sweet darlin'
