

# Sweet Darlin [Live]

## Heart

Sweet darlin'  
You saved me  
I'm hummin'  
From the lovin'  
You gave me  
You went so far  
Where my feelings are  
Breathing heaven fire  
Sweet darlin'

I know you  
You stopped running  
You knew I had something  
To show you  
The fever tamed  
Like an angel came  
Made music of my name  
Sweet darlin'

Early that morning we knew I had to fly  
Engines were screaming and still I was asking myself why  
High on the wind I was feeling my sweet darlin' cry  
My heart was breaking  
I closed my eyes  
Darlin'  
Can you hear me  
We can't be wrong  
The night's song  
Pulls you near me  
Time just falls  
Distance small  
I feel you all  
Sweet darlin'
