## Uh Oh

## **The Cheetah Girls**

My hands are down, I can no longer masquerade You're just like poison in my veins killing me inside I know you tell everyone, I'm, what's her name But you're story tends to change when you look in my eyes Uh oh, do you really wanna know? Don't waste another minute of my precious time The social strain is watching you out with all your friends With the disgust that you pretend when I walk on by You wear it well, treating me like someone you don't know But then you call me on the phone to tell me goodnight Uh oh, I think I better go Before I turn this love into a crime Uh oh, do you really wanna know? Don't waste another minute of my precious time You can turn me inside out You can follow me around I don't care what you do Just as long as you know, I'm through Uh oh, I think I better go Before I turn this love into a crime Uh oh, do you really wanna know? Don't waste another minute of my precious time Uh-oh, uh-oh Don't wanna think about when you were mine
