Battleship

Hot Rod Circuit

i can't eat, i can't sleep
I'm looking up at the satellites
where did we go wrong this time, whoadid you think this through
do you have the facts
oh I'm betting on a fight another heart attackall translation is lost
I'm so exhausted, I'm coming undonesinking like a battleship
am i ever gonna get through this
we're standing on a fault line
oh this happens all the timewell i can't think
I'm losing sleep
I'm staring up at the stars tonight
where did we go wrong this time, whoasinking like a battleship
am i ever gonna get through this
we're standing on a fault line
oh this happens all the time
we're sinking like a battleshipwe're sinking like a stone
we're barely hanging on
we're sinking like a stone
we're barely hanging onsinking like a battleship
am i ever gonna get through this
we're standing on a fault line
oh this happens all the time
we're sinking like a battleship
